

The Annual Planetary Geologic Mappers Meeting - 2014

*U.S. Geological Survey
Astrogeology Science Center
Flagstaff, AZ
June 23 to 25, 2014*

*Monday, June 23 - Oral and poster presentations
Tuesday, June 24 - Oral and poster presentations
Wednesday, June 25 - GIS and Geologic Mapping - Q&A*

*Abstract Deadline - May 30, 2014
Register at http://bit.ly/PGM_2014*

The PGG Geologic Mapping Subcommittee has determined the basic schedule for the 2014 Planetary Geologic Mappers Meeting. Please feel free to forward this email to interested individuals.

SPECIFICS

The Annual Planetary Geologic Mappers Meeting
U.S. Geological Survey
Astrogeology Science Center
Flagstaff, AZ
Monday, June 23 through Wednesday, June 25, 2014

FREE REGISTRATION AND ABSTRACT SUBMISSION

All attendees are REQUIRED TO REGISTER at www.usgs.gov/planetary-geology/2014-annual-planetary-geologic-mappers-meeting
Please fill out all fields completely to aid in logistical planning.

SCHEDULE

Monday, June 23 – Oral and Poster Presentations
Tuesday, June 24 – Oral and Poster Presentations
Wednesday, June 25 – GIS and Geologic Mapping Q&A

ATTENDANCE

Principal investigators with currently funded NASA geologic mapping projects are required to attend in order to present the status of mapping efforts and obtain guidance for map formatting and submission. Attendance by scientists and students interested in cartography, geologic mapping, and map related topical science is encouraged.

TOPICS

Though oral and/or poster presentations that provide the status of active mapping projects are required, we encourage the addition of map-based science discovery to meeting abstracts and presentations. Please consider augmenting your abstract with such information or provide companion abstracts and/or posters. Topics might include novel mapping approaches, landform analyses, crater counts, or integration of geochemistry and/or radar sounding to map unit identification and description. Our goal is to elevate meeting abstracts above basic progress reports.

ABSTRACTS (CHANGE FROM PAST PROCESS)

Abstracts will be submitted in LPSC-style (PDF format preferred). Deadline for submission is **Friday, May 30, 2014**. Authors are solely responsible for the editorial content and completeness of submitted abstracts. Those abstracts not meeting minimum format, grammar, and IAU-approved nomenclature guidelines will be returned to the author for changes and re-submission. Presentations will be arranged into topical schedules and attendees will be alerted to the final abstract list and schedule. Abstracts will be published with meeting summaries and refined geologic mapping guidelines and will be made available online.

QUESTIONS/COMMENTS

Should you have any questions regarding the Annual Planetary Geologic Mappers Meeting, please contact me using information below.
